

Faculty Evaluation of History and Physical Examination Requirements for Surgical Clerkship

Student Name: _____

Faculty Name: _____

Date: _____

Faculty member: Read the medical student's formal history and physical examination of your patient, along with the brief monograph the student was to write about the patient's disease.

Identify the pertinent positives and negatives in the history and physical examination and circle them on that document.

Based upon your evaluation of the above data, check one column in each of the following categories:

Item	Excellent	Adequate	Inadequate
Pertinent positives and negatives covered in the history			
Pertinent positives and negatives covered in the physical examination			

Enter your evaluation of the monograph the student wrote on the patient's disease by checking one of the columns below:

Item	Excellent	Adequate	Inadequate
Quality of the monograph on the patient's disease			

Finally, provide any comments you may have regarding the student's performance of this requirement:
