

MS4 Medical Teaching – MED 420

Course Directors: Michael Koller, M.D., Patty McNally, Ed.D.

General Information:

Physicians teach many learners in their practice. Those learners include students, patients, nurses, and their medical colleagues.

- This elective will occur over the 9-month period (8/1/11 – 6/1/12) of fourth year for two weeks elective credit
- Communication regarding this elective is done via e-mail which should be checked weekly.
- Quarterly meetings to discuss medical education theory, methodology and practice will be required. **You will be expected to attend one out of every two sessions in the summer, fall, winter, and spring. While we hope you attend all four sessions, three will be required. The dates of these 1 ¾ hour sessions beginning at 4:45 PM in Classroom 160 are:**
Summer: Mondays, July 25th or August 1, 2011;
Fall: Monday, October 24th or Tuesday, November 1, 2011;
Winter: Mondays, January 23rd or January 30, 2012;
Spring: Mondays, March 12th or March 26, 2011.
- The opportunity to implement that knowledge will be in the form of a teaching practicum through the PCM2 small groups (five) and independent sessions with MS2s.
- The expectations are that formal teaching encounters will occur; five lectures and five small group sessions (conducted on Tuesday afternoons) over the nine months. Completion – online in your Student Portfolio – of one *Critique of Lecturer* form for each lecture attended (total of five) and one *Preparation for Your PCM2 Small Group* form for each small group taught (total of five) will be required. Ideally, these should be done within one week of the session you attend. These must be completed online on or **before May 1, 2012.**
- You may attend PCM2 one time during each of your subinternships. (once during the ICU subinternship and once during the floor subinternship)
- You may attend PCM 2 one time during your required emergency medicine elective.
- Ideally, no more than 2 MS4s will attend any PCM2 small group. Once the class roster is complete, each small group will pick a leader and coordinate a calendar to cover your PCM2 small group for the year.
- If you are on call on a Monday, you should NOT attend PCM2 small group. You should go home.
- You will need to ask permission from your elective to attend PCM2 small groups. Do not assume PCM2 small group teaching “trumps” any elective requirements. Ask EARLY!
- You are expected to contact your small group facilitator and other MS4 BEFORE each small group to coordinate teaching functions for each small group.
- The observation and critique of two medical student teachers will be required. You choose the medical school professors you want. Completion – online in your Student Portfolio – of one

MS4 Medical Teaching – MED 420

Course Directors: Michael Koller, M.D., Patty McNally, Ed.D.

Critique of Teacher form for each teacher observed (total of two) is required on or **before December 1, 2011.**

Competency-Based Goals and Outcome Objectives:

The Stritch School of Medicine offers an elective in Teaching in Medical School. This elective is an introduction to the concepts, methodologies and foundation for medical education, its role in the physicians practice, and its application to lifelong learning. Whether assuming a position as a medical educator or taking responsibility for one's own Continuing Medical Education, this elective will provide a sound foundation for academic excellence, research or scholarship.

Competency: Knowledge

- Identify adult learning theory and its application to academic medicine
- Demonstrate application of those theories through a teaching practicum in PCM2. Skills must be demonstrated through the teaching of:
 - History and Physical examination
 - Written record review
 - EKG and CXR interpretation
 - Oral presentation
- Demonstrate their ability to structure a safe learning environment where critical inquiry is encouraged and embraced

Competency: Communication:

- Demonstrate group communication skills through their role as co-facilitator in PCM2 small group and peer presentations
- Demonstrate interpersonal communication skills in their patient counseling sessions, MS2 student feedback, and through mentoring roles they may assume as a result of their role in PCM2

Competency: Professionalism:

- Work collaboratively with their students in PCM2, colleagues, and facilitators
- Demonstrate respect for their role as teacher by valuing the learner and the education profession
- Turn in all reflections and complete all course requirements

MS4 Medical Teaching – MED 420

Course Directors: Michael Koller, M.D., Patty McNally, Ed.D.

Competency: Lifelong Learning, Problem-Solving and Personal Growth:

- Demonstrate their ability to develop learning habits and strategies that will foster continuing development as physicians and learners
- Identifying and using educational materials that would support their role as a medical educator

Competency: Social and Community Context of Healthcare:

- Recognize political and social issues that are pervasive in the current health care system.
- Describe and implement a plan to effectively address the cultural, racial and socio-economic barriers encountered when teaching patients or in the classroom setting.

Assessment:

1. Reflections:

Maintain a teaching and learning log (online student portfolio) in which they will record 12 reflections total, which may include:

- Their preparation for each teaching encounter
- The goal of each teaching activity
- Whether goal was achieved
- Recommendations for their improvement
- Assessment of PCM 2 lecturer's teaching effectiveness

2. Assessment:

- Assessment of the teaching techniques demonstrated by the teacher during observation by facilitator and/or course director and/or PCM student
- Direct faculty observation and formative/summative feedback will be provided on an ongoing basis by facilitator and/or course director and/or PCM student
