

STUDY GUIDE 1: Practical Neurology DVD Review

View the referenced DVD patient cases, especially if no hospital or clinic patients are encountered for any one condition or syndrome. The DVD patient cases are referenced by “condition or syndrome” in STUDY GUIDE 1:

Condition or syndrome: _____

FOCAL WEAKNESS OR NUMBNESS

Viewed?	Case	Diagnosis of Patient
		<i>NEUROMUSCULAR</i>
<input type="checkbox"/>	1	Bilateral Carpal Tunnel in Pregnancy
<input type="checkbox"/>	2	Ulnar Neuropathy at the Elbow
<input type="checkbox"/>	3	Peripheral Facial Nerve Palsy
<input type="checkbox"/>	4	Hypoglossal Nerve Palsy
<input type="checkbox"/>	5	Brachial Plexopathy (Parsonage-Turner Syndrome)
<input type="checkbox"/>	6	Polyneuropathy/Sensory Neuronopathy
<input type="checkbox"/>	7	L-5 Radiculopathy (Disc Herniation)
<input type="checkbox"/>	8	Foot Drop: History of Arthroscopic Surgery
<input type="checkbox"/>	9	Motor Neuron Disease
<input type="checkbox"/>	10	Myasthenia Gravis
<input type="checkbox"/>	11	Myotonic Dystrophy
		<i>SPINAL CORD</i>
<input type="checkbox"/>	12	Posttraumatic Cervical Syringomyelia
<input type="checkbox"/>	14	Cervical Myelopathy
<input type="checkbox"/>	15	Ischemic Myelopathy
<input type="checkbox"/>	16	Paraparesis after Nitrous Oxide Anesthesia
		<i>CEREBROVASCULAR</i>
<input type="checkbox"/>	30	Vertebrobasilar TIAs: Basilar Artery Stenosis
<input type="checkbox"/>	32	Pure Motor Hemiparesis due to Capsular Lacunar Infarction
<input type="checkbox"/>	33	Ataxic Hemiparesis due to Pontine Infarction
<input type="checkbox"/>	34	Left Internal Carotid Artery Dissection
<input type="checkbox"/>	35	Wallenberg Syndrome 2° to Vertebral Artery Dissection
<input type="checkbox"/>	36	Multiple Cerebral Infarctions due to APLA Syndrome
<input type="checkbox"/>	38	Watershed Infarcts
<input type="checkbox"/>	39	Moyamoya Syndrome Associated with Down Syndrome
<input type="checkbox"/>	41	Recurrent Facial Palsies (VZV) followed by Cerebral Infarction
<input type="checkbox"/>	43	Pure Sensory Stroke due to Thalamic Hemorrhage
<input type="checkbox"/>	44	Superior Sagittal Sinus Thrombosis
		<i>OTHERS</i>
<input type="checkbox"/>	64	Multiple Sclerosis (Pontine Lesion)
<input type="checkbox"/>	66	Horner's Syndrome in Patient with Wallenberg Syndrome
<input type="checkbox"/>	77	Deafness/Tinnitus 2° to Vestibular (Acoustic) Schwannoma
<input type="checkbox"/>	92	Hemiplegia Gait/Spasticity
<input type="checkbox"/>	93	Leptomeningeal Malignancy (Lymphoma)

STUDY GUIDE 1: Practical Neurology DVD Review

Condition or syndrome: _____ **VISUAL CHANGES**

Viewed?	Case	Diagnosis of Patient
		<i>BEHAVIORAL NEUROLOGY</i>
<input type="checkbox"/>	23	Alexia without Agraphia
<input type="checkbox"/>	24	Gerstmann Plus Syndrome
<input type="checkbox"/>	26	Amnesia (PCA Infarct)
		<i>CEREBROVASCULAR</i>
<input type="checkbox"/>	34	Left Internal Carotid Artery Dissection
<input type="checkbox"/>	42	Multiple Lobar Hemorrhages/Cerebral Amyloid Angiopathy
		<i>DEMYELINATING</i>
<input type="checkbox"/>	62	Bilateral Internuclear Ophthalmoplegia 2° to MS
<input type="checkbox"/>	63	Nystagmus/Ataxia 2° to Relapsing-Remitting MS
<input type="checkbox"/>	64	Multiple Sclerosis (Pontine Lesion)
<input type="checkbox"/>	65	Spastic Gait/Dysarthria due to Primary Progressive MS
		<i>NEUROOPHTHALMOLOGY</i>
<input type="checkbox"/>	68	Anterior Ischemic Optic Neuropathy
<input type="checkbox"/>	69	Postoperative Acute Left CN III Palsy
<input type="checkbox"/>	70	Progressive Left CN III Palsy 2° to Cavernous Sinus Mass
<input type="checkbox"/>	71	CN VI Palsy
<input type="checkbox"/>	72	Chronic Progressive External Ophthalmoplegia
<input type="checkbox"/>	73	Right Homonymous Hemianopsia, APLA, (PCA Occlusion)
		<i>OTHERS</i>
<input type="checkbox"/>	79	Wernicke's Encephalopathy 2° to Hyperemesis Gravidarum
<input type="checkbox"/>	84	Pseudotumor Cerebri

STUDY GUIDE 1: Practical Neurology DVD Review

Condition or syndrome: **DEMENTIA, MEMORY OR COGNITIVE LOSS**

Viewed?	Case	Diagnosis of Patient
		<i>BEHAVIORAL NEUROLOGY</i>
<input type="checkbox"/>	17	Nonfluent Aphasia 2° to Left Frontal Infarction
<input type="checkbox"/>	18	Nonfluent Aphasia 2° to LICA Occlusion
<input type="checkbox"/>	19	Fluent Aphasia 2° to Left Posterior Temporal Infarction
<input type="checkbox"/>	20	Wernicke Aphasia 2° to Left MCA Infarction
<input type="checkbox"/>	21	Primary Progressive Aphasia
<input type="checkbox"/>	23	Alexia without Agraphia
<input type="checkbox"/>	24	Gerstmann Plus Syndrome
<input type="checkbox"/>	26	Amnesia (PCA Infarct)
<input type="checkbox"/>	27	Dementia (Early Alzheimer Disease)
<input type="checkbox"/>	28	Dementia (Late Alzheimer Disease)

(On-line you tube videotaped patients not in Practical Neurology DVD Review):

Condition or syndrome: **DELIRIUM/ACUTE MENTAL STATUS CHANGE**

Delirium Quiet and Excited (Department of Veterans Affairs) 5:50

www.youtube.com/watch?v=zv38USNjFs

Delirium Assessment (University of Dundee) 7:03

www.youtube.com/watch?v=2mCfFmNmJGY

STUDY GUIDE 1: Practical Neurology DVD Review

Condition or syndrome: **DIZZINESS/ABNORMAL GAIT OR BALANCE**

Viewed?	Case	Diagnosis of Patient
		<i>SPINAL CORD</i>
<input type="checkbox"/>	13	Lumbar Myelomeningocele/Spina Bifida
		<i>CEREBROVASCULAR</i>
<input type="checkbox"/>	30	Vertebrobasilar TIAs: Basilar Artery Stenosis
<input type="checkbox"/>	31	Dysphagia/Imbalance: Vertebral Artery Stenosis
<input type="checkbox"/>	33	Ataxic Hemiparesis due to Pontine Infarction
<input type="checkbox"/>	35	Wallenberg Syndrome 2° to Vertebral Artery Dissection
		<i>EXTRAPYRAMIDAL</i>
<input type="checkbox"/>	52	Palatal Myoclonus due to Medullary Infarction
		<i>CEREBELLAR</i>
<input type="checkbox"/>	59	Ataxia due to Bilateral PICA Infarctions
<input type="checkbox"/>	60	Cerebellar Ataxia
<input type="checkbox"/>	61	Hereditary Ataxia
		<i>DEMYELINATING</i>
<input type="checkbox"/>	62	Bilateral Internuclear Ophthalmoplegia 2° to MS
<input type="checkbox"/>	63	Nystagmus/Ataxia 2° to Relapsing-Remitting MS
<input type="checkbox"/>	64	Multiple Sclerosis (Pontine Lesion)
<input type="checkbox"/>	65	Spastic Gait/Dysarthria due to Primary Progressive MS
		<i>NEUROOTOLOGY</i>
<input type="checkbox"/>	76	Vertigo/Imbalance 2° to Isolated Vermian Infarction
<input type="checkbox"/>	78	Vertiginous Dizziness
		<i>NUTRITIONAL/METABOLIC</i>
<input type="checkbox"/>	79	Wernicke's Encephalopathy 2° to Hyperemesis Gravidarum
		<i>GAIT AND OTHERS</i>
<input type="checkbox"/>	91	Gait Apraxia (Magnetic Gait)
<input type="checkbox"/>	92	Hemiplegic Gait/Spasticity
<input type="checkbox"/>	94	Acute Cerebellar Infarction (PICA) with Early Hydrocephalus
<input type="checkbox"/>	95	Conversion Disorder (Gait)

STUDY GUIDE 1: Practical Neurology DVD Review

Condition or syndrome: _____ **HEADACHE OR REGIONAL PAIN**

Viewed?	Case	Diagnosis of Patient
		<i>BEHAVIORAL NEUROLOGY</i>
<input type="checkbox"/>	24	Gerstmann Plus Syndrome
		<i>CEREBROVASCULAR</i>
<input type="checkbox"/>	42	Multiple Lobar Hemorrhages/Cerebral Amyloid Angiopathy
<input type="checkbox"/>	44	Superior Sagittal Sinus Thrombosis
		<i>NEUROINFECTIOUS</i>
<input type="checkbox"/>	74	Herpes Zoster (Postherpetic Neuralgia)
<input type="checkbox"/>	75	Recurrent Aseptic Meningitis
		<i>HEADACHES/PAIN</i>
<input type="checkbox"/>	81	Migraine Headaches/Pregnancy
<input type="checkbox"/>	82	Cluster Headaches
<input type="checkbox"/>	83	CSF Hypotension Syndrome
<input type="checkbox"/>	84	Pseudotumor Cerebri
<input type="checkbox"/>	85	Trigeminal Neuralgia
<input type="checkbox"/>	86	Atypical Facial Pain

STUDY GUIDE 1: Practical Neurology DVD Review

Condition or syndrome: _____ **IMPAIRED CONSCIOUSNESS OR SLEEP DISORDER**

Viewed?	Case	Diagnosis of Patient
		<i>CEREBROVASCULAR</i>
<input type="checkbox"/>	38	Watershed Infarcts
		<i>EPILEPSY</i>
<input type="checkbox"/>	87	Partial Complex Seizures
<input type="checkbox"/>	88	Partial Seizures with Elementary Symptomatology
		<i>SLEEP MEDICINE</i>
<input type="checkbox"/>	90	Obstructive Sleep Apnea

STUDY GUIDE 1: Practical Neurology DVD Review

Condition or syndrome: **SEIZURES OR ABNORMAL MOVEMENTS**

Viewed?	Case	Diagnosis of Patient
		<i>CEREBROVASCULAR (seizures)</i>
<input type="checkbox"/>	44	Superior Sagittal Sinus Thrombosis
		<i>EXTRAPYRAMIDAL</i>
<input type="checkbox"/>	45	Parkinsonian Tremor
<input type="checkbox"/>	46	Essential Tremor
<input type="checkbox"/>	47	Parkinsonian plus Essential Tremor
<input type="checkbox"/>	48	Parkinson's Disease
<input type="checkbox"/>	49	Torticollis
<input type="checkbox"/>	50	Cerebral Palsy/Dystonia
<input type="checkbox"/>	52	Palatal Myoclonus due to Medullary Infarction
<input type="checkbox"/>	53	Lacunar Hemichoreoathetosis
<input type="checkbox"/>	55	Hemifacial Spasm
<input type="checkbox"/>	56	Tic Disorder
<input type="checkbox"/>	57	Hemidystonia (Sarcoidosis)
<input type="checkbox"/>	58	Acute Dystonic Reaction
		<i>CEREBELLAR</i>
<input type="checkbox"/>	61	Hereditary Ataxia
		<i>EPILEPSY</i>
<input type="checkbox"/>	87	Partial Complex Seizures
<input type="checkbox"/>	88	Partial Seizures with Elementary Symptomatology
