ALSO:

The Medical Store offers free laser engraving on the stethoscopes. (20 character max)

***To opt-out,** you must demonstrate to the course director that you have reasonable, comparable equipment already. You'll be asked to present this equipment in the next few weeks to Dr. Winger. You will have at least 18 exercises over the first two years where you will be expected to use your own equipment in practice and testing sessions, so we want to make sure your equipment is in good shape.
